

Experiment 7.1 - Weather data

Name: _____

Date	Temperature		Precipitation	Pressure		Cloud Cover		Wind	
	High	Low		High	Low	Early	Late	Speed	Direction
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
						(Cumulus? Cirrus? Stratus?)	(Cumulus? Cirrus? Stratus?)		
Dec 12	F	F	inches	in Hg	in Hg	cumulus cirrus stratus	cumulus cirrus stratus	mph	ne sw

- **Make a copy of this sheet**
- Record the cloud cover and wind from your own observations
- Go to www.wunderground.com
- Find the weather for your city (make sure you are viewing the "Full Forecast")
- Go to the history Almanac section on that page
- Click yesterday's date
- Find the precipitation, the high and low pressure, and the high and low temperature for yesterday
